# The Math Lady ® Speaks at National Kappa League Webinar

After delivering the SAT Math Boot Camp sponsored by the Lawrenceville-Duluth Alumni Chapter (LDAC) and the LDAC Foundation of Kappa Alpha Psi Fraternity, Inc. The Math Lady ® was invited by the National Guide Right Leadership team to serve as a guest speaker for the 2nd year in a row.

On Wednesday, March 13, 2019, Sandra Carter, known as The Math Lady ® is scheduled to address the other Guide Right / Kappa League Programs across the nation on the topic of Youth Entrepreneurship during an online webinar.

This is an interactive webinar that every parent and student should participate in regardless of whether the student has aspirations of college, entrepreneurship or both.

This webinar will also help students to start thinking about how to find the money for college and to understand how to use their passion to achieve their dreams.

Tune in and learn with your child how to turn a passion into a money making opportunity.
